

Quince is looking for you: Sr. Front-end Developer

Company

Quince is a one-stop digital and retail activation agency.

We take care of strategy, branding, print, interactive, production and software for major international brands from the Telecom, IT and Consumer Electronics industry.

Quince is a unique, people-oriented company, which is reflected in loyal clients and low staff turnover. Passion in your work, challenging yourself, taking responsibility, respect, having fun and exceeding expectations are core values.

Quince continuously invests in personal growth and in the latest technologies. More than 75 employees of various nationalities work at the headquarters in Amsterdam and the Budapest office.

Job function

As a Front-end Developer, you will work in the Budapest office, as part of a team, who creates world class digital and retail communication platforms, tools and innovative e-learning solutions.

Our platforms are used by leading telecom and consumer electronic brands from all across the globe. These solutions use gamification techniques to engage our clients' sales staff and help more than 100.000 users worldwide to keep their knowledge up-to-date.

As a Front-end Developer, your work will involve close collaboration with the back-end team, designers, account leads and copywriters.

Being part of the the final stage of development, beyond realizing the functional and visual core of the page, your task is to proof that all parts of the page – back-end functionality, design and copy – deliver a great experience on all target devices.

Things you should have

- Strong fluency in Vanilla Javascript
- Good knowledge of at least one MV* framework. (with a preference of Vue.js or Angular2)
- Experience with version control systems (Git is our choice)
- Willing to mentor others, participate in code reviews
- Desire to work on large, long-term projects
- Up-to-date, and maintained knowledge of tools and best-practices for creating a high performing web experience
- A personal practice of creating (unit)tests, well documented and reusable codes
- A passion for great experiences and slick UIs on the web and a desire to work with a team that makes this a priority
- Good knowledge of English

Things, that make us very happy (aka the plus)

- Experience with NativeScript or Weex is a huge plus.
- Knowledge of newest JS standards (ES6/ES7)
- Knowledge of test automation of frontend applications
- If any of these rings a bell: OOCSS, BEM, ITCSS, Atomic Design
- Experience with, or strong interest in creating and maintaining pattern libraries/design systems
- Knowledge of templating languages (eg. Jade/Pug, Nunjucks, Handlebars, etc.)
- Experience with Java based web applications
- Experience with issue tracking systems (we use YouTrack)
- Any Open Source contributions

Offer

Quince has an open and stimulating company culture and barely knows hierarchy. You will be working in the nicest area of Budapest, with a great view to the Danube and the Buda hills, in a cozy office with great people.

How to apply

Please send us your CV via email to info@quince.hu (the subject of the email should be Front-end Developer').
