

Quince Amsterdam is looking for you:

Unity Developer

Virtual reality/augmented reality/mixed reality

Quince is developing interactive installations for retail and events for over 10 years now. Since 2014 we are experimenting and developing Virtual Reality, Augmented Reality and Mixed Reality content for the Oculus Rift, Samsung Gear VR, HTC Vive and soon also for the Hololens. We create our own 360 degrees movies, making them interactive and building immersive experiences for our international clients.

What you will be working on:

- » Developing, releasing, and maintaining the different immersive experiences.
- » Developing, releasing, and maintaining games for events and retail.
- » Taking responsibility and ownership for delivering high quality software.
- » Identifying and solve problems pro-actively.
- » Researching and implementing with the latest technologies (Whiplash chair, VR suits, Controllers, Leap Motion, cameras, etc...).
- » Sharing your knowledge, experience and be a technical sparring partner for your colleagues.

What we like:

- » You have deep understanding for 3D, Unity and C# development.
- » You have good knowledge of the latest Unity, Virtual/Augmented Reality technologies and trends.
- » You have 5+ years of development experience of which at least 2 years with Unity.
- » You have a deep understanding of the do's and don't regarding 3D rendering.
- » Good knowledge of RESTful APIs to integrate applications to server side systems.

- » You can think outside the box and have a mind-set to get things done.
- » You communicate effectively in English.

It is a big plus if you have:

- » Experience with backend development, which allows you to be a full stack developer when required.
- » Experience with the Unreal engine, WebGL or other relevant frameworks.
- » Feeling with 3D design (modelling/texturing).
- » Knowledge of rendering special effects into real footage.
- » Knowledge about optimising 3D models for quality vs performance

Interested?

This job opening entails for 32-40 hours per week, with the possibility of extension.

Please call or mail us if you're interested. Direct applications only.
